

Maureen Benitz
Sr. Campaign Finance & Reviewing Analyst
Reports Analysis Division

In your RFAI, dated 4/22/11, you request information on the increase in receipts and disbursements reported on the amended 12 Day Pre-General Report received 4/14/11.

The Committee provided explanations for these changes in the memo text accompanying the amended report and believes that this information responds to your request. If the explanation is not sufficient, the Committee would be pleased to provide additional information.

The relevant portion of the memo text accompanying the amended report read:

"[This amendment] also reports increased receipts because of a data entry error in the Committee's reporting software, which inadvertently omitted all contributions received through one of the Committee's fundraising programs. Additional details on this issue are presented in the October Quarterly amendment. The expenditures reported have also increased due to an error in reporting expenditures for the Tea Party HD Tour. The original report omitted a zero; the expenditure should have been reported as \$30,000, rather than \$3,000. Finally, the FFE Adventas expenditure in the original report has been moved to the Post-General report to coincide with Independent Expenditures notices filed during that period."

Sincerely,
Chris Marston
